www.entelegent.com**Data Services | DSL****Product Description**

EnTelegent is the service provider you can rely on to provide mission-critical connectivity to grow with you as your business needs evolve over time.

EnTelegent Solutions DSL or xDSL, is a family of technologies that provides digital data transmission over the copper wire local telephone network. We work with you to determine what speeds will work best for your application.

The underlying partner infrastructure incorporates an extensive network of relationships designed to deliver solutions that are among the best in the industry, including hybrid and mixed access solutions with DSL and traditional DS1 and higher bandwidth options.

Additional benefits include world-class service levels and a comprehensive, easy to use customer portal to manage complex enterprise environments.

EnTelegent leverages best-in-class technology and service offerings, combined with aggressive pricing and a world-class support infrastructure, to provide industry leading managed communications solutions to the business community.
