Your most important business asset is your data. Without customer information, financial statements and other company documents, you can't perform important business functions.

EnTele-Vault is a *Set and Forget* online data backup service: once configured, it's automatic. When you deploy our EnTele-Vault solution, your data will always be secure in our SAS-70, Type II certified data center, yet accessible. So accessible, your employees will easily complete their own restores without IT support.

With EnTele-Vault you get a complete system that provides automatic backups, quick restores, and benefits such as risk reduction, disaster recovery, cost reduction and regulatory compliance.

Additional benefits include world-class service levels and a comprehensive, easy to use customer portal to manage complex enterprise environments.

Entelegent leverages best-in-class technology and service offerings, combined with aggressive pricing and a world-class support infrastructure, to provide industry leading managed communications solutions to the business community.
