Product Description

EnTele-Manage is a telecom expense and activity management solution for enterprise customers with multi-location, multi-vendor, multi-service environments for wireline and wireless services. Consolidate and simplify your telecom bills and invoices.

The **EnTelegent** solution delivers a powerful set of tools that provide a single point of administration and control for all telecom services, activities, costs and invoices.

Continuously reconcile your inventory to carrier records and internal documentation for real time information. Get item level General Ledger (G/L) and Cost Center coding to assist in budgeting and monthly reporting.

Additional benefits include centralized change management and trouble tracking to facilitate communication between IT and A/P for provisioning new or terminating old services.

EnTelegent leverages best-in-class technology and service offerings, combined with aggressive pricing and a world-class support infrastructure, to provide industry leading managed communication solutions to the business community.
