Data Services | MPLS**Product Description**

EnTelegent is the service provider you can rely on to provide mission-critical connectivity to grow with you as your business needs evolve over time.

With multiple Tier 1 national provider partners, EnTelegent can transport data wherever it needs to go, and make content and resources available to employees, customers and prospects, wherever they may be.

The underlying partner infrastructure incorporates a state-of-the-art nationwide OC-192 backbone. EnTelegent MPLS ports provide private wide area network (WAN) connectivity between Customer locations.

Additional benefits include world-class service levels and a comprehensive, easy to use customer portal to manage complex enterprise environments.

EnTelegent leverages best-in-class technology and service offerings, combined with aggressive pricing and a world-class support infrastructure, to provide industry leading managed communications solutions to the business community.
