Voice | Dedicated Long Distance

Product Description

Whether you are calling across the country or across the globe, EnTelegent Dedicated Long Distance service provides high-quality and cost-effective in-state, state-to-state and international calling for your business.

EnTelegent Dedicated Long Distance service allows you to place outbound long-distance calls over a dedicated connection between your premise equipment and our partner long-distance network. The end result is a crisp voice service delivered over a high-performance digital communications network.

Our underlying partner infrastructure incorporates an extensive network of relationships designed to deliver solutions that are among the best in the industry. No matter what PBX infrastructure you have, VoIP or traditional TDM, you'll enjoy reliable, quality connections.

Additional benefits include world-class service levels and a comprehensive, easy to use customer portal to manage complex enterprise environments.

EnTelegent leverages best-in-class technology and service offerings, combined with aggressive pricing and a world-class support infrastructure, to provide industry leading managed communications solutions to the business community.
