Product Description

IBM® Lotus® Sametime® Unyte™ Meeting

Unyte™ Meeting allows the host to show any document on their computer to their audience such as a PowerPoint presentation. Unyte Meeting offers meeting collaboration and real time document sharing and editing. The intuitive user interface is easy to use and control.

Microsoft® Office Live Meeting

Live Meeting Standard provides presentation and annotation tools for underscoring major topics and white boarding ideas. Additionally, you can present websites and applications. Live Meeting Professional offers recording options and remote control features that let participants temporarily take charge of the meeting.

WebEx™ Services

EnTelegent Solutions offers the complete suite of WebEx services including Meeting Center, Event Center, Training Center, and Support Center. The WebEx suite has been developed to provide services to meet all of your web conferencing needs.

Audio and Video Webcasting

EnTelegent Solutions offers audio and video webcasting services that allow you to reach a wide audience in the most economical way. Webcasting allows you to "stream" real-time audio and video along with your presentation materials to your audience via the internet.
