

ABOUT US

EnTelegent Solutions is a 100% Channel-driven IT and Telecom Business Solutions provider with one of the highest customer retention rates in the industry. We team with Technology Services Distributors, Advisors, and MSPs to deliver cost-effective, innovative solutions that build valued, long-term relationships.

Our “sweet spot” is providing IT and Telecom Business Solutions for multi-location, multi-service, enterprise clients in the US and 160+ countries worldwide. Regardless of whether you need a comprehensive Full-Stack, White Label, or Stand-Alone solution, you can count on us for help when and where you need it.

MANAGED SERVICES

By outsourcing MANAGED SERVICES such as IT Infrastructure and SD-WAN Management, Network Services Monitoring, and Domestic and Global Field Services, businesses can increase uptime and availability, reduce downtime and maintenance costs, streamline processes, and achieve better overall efficiency that ultimately pays for itself.

NETWORK SERVICES

NETWORK SERVICES such as SD-WAN, Connectivity, VoIP/Voice connect users, streamlining data exchange. They enhance communication, collaboration, and CX by allowing users to share information in real time for greater productivity. Regardless of where your users are located we can optimize NETWORK SERVICES performance and costs.

ENVISION LIFE CYCLE MANAGEMENT

ENVISION LIFE CYCLE MANAGEMENT delivers a powerful set of proprietary, AI-driven tools that support cost reduction, technology transformation, and a single point of administration/control for third-party providers, services, activities, and accounting - all backed by our team of subject matter experts and delivered via a secure web portal.
